There was some covering of shorts early and a little more outside busing on the assurances given in Washington regarding Germany's attitude in the Pallippines. Then there was some anticipation that Santiago might capitulate in time for the market to be supported by the heavy July disbursements. Rumors of an early settlement of the transcontinental war were again resmonsible for the strength in the Northern Pacific, which was moderately sumpiled by London. The absorption recently by a syndicate of B. & O. hoighings of Western Union, which removed the fear of these large holdings being thrown on the market, was used as a lever in raising that stock, but there was realizing on the advance, causing the stock to sag off. The decrease in St. Paul's weekly earnings, the first since October, accounted for the sluggishness in the grangers. A movement against the shorts in Tobacco brought about a sharp advance in that specialty.
